Sun shine is good for your radio, get outdoors!

The RaDAR Challenge

The third RaDAR Challenge for 2020 takes place from 00:00 UTC to 23:59 UTC on Saturday 7 November 2020. It is a twenty-four hour activity, but you only need to operate for 4 hours, you choose the 4 hours. You may use all amateur bands including cross band contacts via amateur radio satellites. Modes – CW, SSB, FM or any legal amateur radio digital mode.

The RaDAR challenge requires more than a minimalistic information exchange. Accurate information exchange is considered more important than a large QSO count. Call sign, name, RS (T) report and grid locator. The grid locator of six characters is acceptable but should preferably be accurate to 8 or 10 characters for higher position accuracy (especially for moving RaDAR stations).

Get all the information in the 2020 Blue Book.

Results of the SARL 80 m QSO Party

Still outstanding.

Unanticipated RFI

Dick, K7BTW, experienced some unanticipated RFI with his coffee grinder: "Went to 80 meters during a RTTY contest tonight and started transmitting. It started my coffee grinder in the kitchen, it kept going when I stopped transmitting. By the time I got to the kitchen to pull the plug, it had ground every bean in the hopper. That has never happened before."

Tinnitus

Tinnitus, the perception of unwanted ringing, tones, or noise, can be symptom of a few underlying pathologies. One company, Lenire (<https://www.lenire.com/>) is using neuromodulation to treat the symptoms of tinnitus caused by nerve or brain dysfunction. "It works by targeting a specific nerve or brain region with a stimulus, such as low levels of electrical energy, in order to alter or adjust the activity within the body or brain to improve a health condition." (Maybe I should contact them! Ed.)

Word to the Wise

"Roger That" - Roger "indicates that a message was heard and understood" while the "that" part refers to the message. According to Dictionary.com, "Roger was brought into the spotlight in part due to public broadcasts of NASA's Apollo missions in the 1960s."

Operating Tip

Cheat Sheets - Knowing the possible exchanges you might hear is helpful, even in a casual contest. For example, in the recently completed Illinois QSO Party, having the list of Illinois counties at hand is a good idea since there are 102 of them. For a contest like the IARU in July, it pays to become familiar with the call signs of the headquarters stations to recognize them as multipliers and be able to jump on them. Special call signs are issued by countries specifically for contests, and announcements of those are published on website such as NG3K.com.

African DX

Contacts with stations on the African continent count towards the SARL's All Africa Award (www.sarl.org.za/public/awards/awards.asp)

Morocco, CN. CN45MS between 1 and 7 November from Oujda commemorates the Green March of 45 years ago. QSL via RW6HS.

African Islands

5R, Madagascar, 5R. Sandro, IN3PPH has received his operating permit for Madagascar (AF-013, WW Loc. LN46CQ). Depending on Covid-19 circumstances, he plans to operate as 5R8SS on HF. QSL via IN3PPH.
